

Commissions 2024

*I create portraits of houses for
anniversaries, birthdays and businesses.*

All prices include an in-depth chat where we choose the motif and perfect perspective together, choose your paper format as well as the colour palette. Furthermore, my service includes a pre-sketch in pencil and the final draft in a style of your choice: full colour - with and without background - or a black line drawing. Per request I'm happy to organise framing for you and / or provide a high-quality digital print file of the artwork for reproduction which comes at additional cost.
